- (a) progress in implementing the Waiheke Declaration on Sustainable Economic Development, endorsed by Leaders at their annual meeting in Auckland in 2011, through initiatives in both productive and enabling sectors;
- (b) progress in implementing the Pacific Islands Framework for Action on Climate Change, including efforts towards integrating regional disaster risk management and climate change frameworks and improving access to and management of climate change finance;

- (d) successfully implementing the Forum Compact on Strengthening Development Coordination in the Pacific, including through peer reviews and public expenditure and financial assessments.

5. Leaders welcomed the Regional Legislative and Regulatory Framework for Deep Sea Minerals Exploration and Exploitation identified as a Pacific Plan priority action in 2009 and thanked the Secretariat of the Pacific Community (SPC) and the European Union (EU) for the assistance towards the Framework. Leaders recommended that Forum Island Countries (FICs) consider using the Framework in formulating relevant national policy noting it highlights the need for a precautionary approach and addresses economic, social and environmental aspects to ensure sustainable resource use prevails.

6. Leaders agreed that the medium-term priorities that they endorsed in 2009, including their subsequent decisions, remain relevant and should guide regional efforts until the outcomes of the review of the Pacific Plan are finalised.

7. Leaders considered the terms of reference for the Pacific Plan Review and agreed that the draft final report of the review, including a refreshed draft of the Pacific Plan, will be presented to Leaders at their meeting in 2013. 22. Leaders noted progress in renegotiating the terms of the US Multilateral Treaty on Fisheries and directed officials to continue the negotiations on remaining outstanding issues with a view to seeking agreement on an appropriate level of payment for the fisheries resources of the region commensurate with their great value. Leaders commended the efforts undertaken thus far by both Forum Fisheries Agency (FFA) members and DWFNs to adhere to the principles of ensuring the long term sustainability of the highly migratory fish stocks in the Western and Central Pacific ocean, and urged continuation of such efforts. In that connection, closing off the Eastern high seas pocket to any form of fishing activity by the DWFNs in the foreseeable future would be a significant step in that direction.

Leaders expressed concern at the damaging effect of IUU fishing, and endorsed the need to continually enhance the effectiveness of monitoring, control, surveillance, and enforcement capabilities in the region. Leaders also acknowledged regional achievements supported by the FFA and the SPC, and recognised the need to support progress through devoting greater attention and resources to:

## PACIFIC LEADERS GENDER EQUALITY DECLARATION

*30 August 2012, Rarotonga, Cook Islands*

The Leaders of the Pacific Islands Forum met from 27 to 30 August 2012 in Rarotonga and brought new determination and invigorated commitment to efforts to lift the status of women in the Pacific and empower them to be active participants in economic, political and social life.

Leaders expressed their deep concern that despite gains in girls' education and some positive initiatives to address violence against women, overall progress in the region towards gender equality is slow. In particular Leaders are concerned that women's representation in Pacific legislature remains the lowest in the world; violence against women is unacceptably high; and that women's economic opportunities remain limited.

Leaders understand that gender inequality is imposing a high personal, social and economic cost on Pacific people and nations, and that improved gender equality will make a significant contribution to creating a prosperous, stable and secure Pacific for all current and future generations.

To realize this goal, Leaders commit with renewed energy to implement the gender equality actions of the Convention for the Elimination of All Forms of Discrimination against Women (CEDAW), the Millennium Development Goals (MDGs), the Revised Pacific Platform for Action on Advancement of Women and Gender Equality (2005 to 2015); the Pacific Plan; the 42<sup>nd</sup> Pacific Island Forum commitment to increase the representation of women in legislatures and decision making; and the 40<sup>th</sup> Pacific Island Forum commitment to eradicate sexual and gender based violence.

To progress these commitments, Leaders commit to implement specific national policy actions to progress gender equality in the areas of gender responsive government programs and policies, decision making, economic empowerment, ending violence against women, and health and education:

### *Gender Responsive Government Programs and Policies*

- **Incorporate** articles from the Convention for the Elimination of all forms of Discrimination against Women (CEDAW) into legislative and statutory reforms and policy initiatives across government;
- **Support** the production and use of sex disaggregated data and gender analysis to inform government policies and programs;
- **Strengthen** consultative mechanisms with civil society groups, including women's advocacy groups, on key budget and policy issues of national and sub-national governments.

### *Decision Making*

- **Adopt** measures, including temporary special measures (such as legislation to establish reserved seats for women and political party reforms), to accelerate women's full and equal participation in governance reform at all levels and women's leadership in all decision making.
- **Advocate** for increased representation of women in private sector and local level governance boards and committees (e.g. school boards and produce market committees).

### *Economic empowerment*

- **Remove** barriers to women's employment and participation in the formal and informal sectors, including in relation to legislation that directly or indirectly limits women's access to employment opportunities or contributes to discriminatory pay and conditions for women.
- **Implement** equal employment opportunity and gender equality measures in public sector employment, including State Owned Enterprises and statutory boards, to increase the proportion of women employed, including in senior positions, and **advocate** for a similar approach in private sector agencies;
- **Improve** the facilities and governance of local produce markets, including fair and transparent local regulation and taxation policies, so that market operations increase profitability and efficiency and encourage women's safe, fair and equal participation in local economies.
- **Target** support to women entrepreneurs in the formal and informal sectors, for example financial services, information and training, and review legislation that limits women's access to finance, assets, land and productive resources.

### *Ending violence against women*

- **Implement** progressively a package of essential services (protection, health, counselling, legal) for women and girls who are survivors of violence.
- **Enact** and implement legislation regarding sexual and gender based violence to protect women from violence and impose appropriate penalties for perpetrators of violence.

### *Health and Education*

- **Ensure** reproductive health (including family planning) education, awareness and service programs receive adequate funding support;
- **Encourage** gender parity in informal, primary, secondary and tertiary education and training opportunities.

Leaders called on Development Partners to work in a coordinated, consultative and harmonised way to support national led efforts to address gender inequality across the region in line with the Paris Declaration on Aid Effectiveness and Cairns Compact on Strengthening Development Coordination in the Pacific. Leaders also requested Development Partners to increase financial and technical support to gender equality and women's empowerment programs, and to adopt strategies within their programs to provide

employment and consultation opportunities for women in the planning and delivery of development assistance to the region.

Leaders agreed that progress on the economic, political and social positions of women should be reported on at each Forum Leaders meeting. They directed the Forum Secretariat, with the support of the Secretariat of the Pacific Community and Development Partners, to develop, as part of the Pacific Plan performance monitoring framework and annual report to Leaders on country progress in implementing the above commitments and moving towards achieving greater gender equality.
