INTRODUCTION

The COVID-19 outbreak has caused a global health emergency and a global economic slowdown impacting millions of small and medium-sized enterprises (SMEs) around the world, including the Pacific region. Travel bans and restrictions on gatherings have particularly affected businesses in the Pacific, with tourism playing a major role in local economies.

Pacific Trade Invest (PTI) has commissioned Fifth Quadrant, an independent research agency, to run a regular survey to understand the ongoing effects of COVID-19 on the Pacific’s private sector. The fourth wave of PTI’s “Pacific Business Monitor” surveys includes responses gathered from 29 June -12 July 2020 from 134 businesses across the Pacific Islands.

This report includes data from the top three Pacific countries that provided responses, giving insights into the nuances between different Pacific countries and the effect COVID-19 is having on the private sector.

It is a long road ahead and through the regular PTI Pacific Business Monitor surveys, the objective is to provide governments, donors and stakeholders with valuable data on how businesses in the Pacific are coping.

ABOUT PACIFIC TRADE INVEST

The PTI Network is an agency of the Pacific Islands Forum Secretariat and is the Pacific’s leading trade and investment promotion agency.

With offices in Australia, China and New Zealand, the PTI Network develops and promotes trade and investment across international markets.
COVID-19 continues to have a negative impact on businesses as borders remain closed. The level of impact COVID-19 is having on businesses is on par with the last two waves, with just under two-thirds reporting a very negative impact.

In line with previous waves, over two-thirds of businesses continue to report a significant decline in revenue due to COVID-19.

As negative impact on business and revenue has remained steady this wave, perception of the local economy remains relatively steady as well, with 90% continuing to report a negative impact on the local economy.
72% (75% Niue) are confident that their business will survive the COVID-19 crisis (down from 74% last wave).

Positively, more businesses are expecting to return to business as usual revenue this year. However, one-quarter are still not sure (25% vs. 17% last wave), indicating there is still uncertainty in the market.
52% (58% Niue) reported that there are barriers preventing them from actioning initiatives to support their business, down from 56% last wave.

**Top 4 Challenges**
- **93%** (94% Niue): Not knowing how long the crisis will last
- **90%** (83% Niue): Impact of closed international borders
- **89%** (87% Niue): Poor cashflow
- **81%** (69% Niue): Impact of lockdown in your country

**Top 4 Initiatives Needed to Action Now**
- **57%** (58% Niue): Need financial support
- **33%** (27% Niue): Diversify business
- **31%** (25% Niue): Review/update financial position
- **29%** (27% Niue): Review/update business strategy

"Due to the nature of business operation relying 100% on tourism, the uncertainty and lack of information, changing rules, are the major barrier of planning in future operation."
– SME, Agriculture, Forestry & Fishing, PNG

"The Government’s response to Covid-19 has yet to be felt or implemented. Despite talks of Covid-19 Assistance, we have not really seen the types of assistance. IRC Tax incentives have not happened, Govt subsidies have not happened but we have to remain neutral and await Govt response."
– SME, Tourism, Niue

**Barrriers to Actioning Initiatives**
- Lack of finance/revenue/cashflow: 33% (36% Niue)
- Closed borders/lockdown: 36% (33% Niue)
- Lack of government support/stimulus: 27% (24% Niue)
- Lack of knowledge & skilled staff: 17% (13% Niue)
